

What is CSPro Chain ?

CSPRO is a token of the BEP-20 standard in the Binance Smart Chain network with a unique algorithm and technical functions. It was developed as a fully decentralized application (DApp).

The main task that CSPRO sets itself is to make mining accessible for all people on the planet, regardless of their place of residence and access to cheap electricity.

A minimum of 5000 CSPRO must be staked to the CSPRO smart contract in order to be able to mine. After that, the miner may receive rewards for 90 days. In order to continue mining at the end of 90 days, Staked Tokens must be withdrawn from the contract and restaked.

CSPRO CHAIN FEEL EMPOWERED!

An overview of Cspro token

Cspro token belongs to a new generation of a green mining , completely decentralized crypto asset. In addition to those features, Cspro has an alphanumeric feature which allows to send an unlimited number of characters in an optional encrypted or unencrypted form during transfers in the blockchain network. Not to forget the reverse halving with its unique Reward Plan. In other words, Reverse Halving goes unlike all other Coins in Market from low to high providing Demand and Supply Balance.

Token Distribution

- Pre sale
- team and founders
- bounty and events
- mining
- research and development
- advisor and partners

Token Lock Up Schedule

After presale 50 % of tokens are transferred to your wallet and the other 50% is locked to avoid a parallel market and to preserve the value of the token. They will be locked for 6 months after the end of sale.
